WEATHER PROOF FLAMMABLE STORAGE CABINETS

SECURALL®

SECURALL® Weatherproof cabinets offer the same dependable storage for flammables and combustibles as our standard safety cabinet line with added protection from the elements.

FEATURES

The double walled FM Approved Cabinets are built with 18 gauge galvanized steel and painted with a weather-resistant, urethane finish that is also resistant to UV rays.

All models feature a sloped roof with a 2 3/4" overhang for and interior & exterior astragals that prevent rain and snow penetration, while the flush mounted stainless steel locking paddle handle resists corrosion.

Easily move these cabinets to the appropriate work location using built-in heavy gauge forklift channels, and then secure with fully welded 7 gauge steel bolt-down brackets.

Available in 30, 45, 60 & 90 gallon capacities with manual and self-closing door styles. Self-closing Safe-T-Doors have fusible links that melt at 165°F allowing the doors to automatically close and latch. Standard color is Yellow.

Cabinets meet NFPA 40 CFR 264, 265, NFPA Code 30 & OSHA 1910 requirements.
