HAZID

FEATURES

Designed & labeled by the Underwriters Laboratories of Canada C1275

Quality constructed from 18 gauge steel

Double wall welded construction

2" between the inner and outer walls filled with a fire proof insulating material

Door sill raised 2" above the bottom of the cabinet to form a liquid-tight well

Three point lock on door

Adjustable satin coat galvanized shelves permit storing of various size containers

Four adjustable levelling feet

2" threaded vents, one on each side, allow for ventilation

Fire baffle covers each vent

Painted with safety yellow enamel, with red bi-lingual letters, warning:

"FLAMMABLE-KEEP FIRE AWAY"

Each cabinet individually cartoned

All cabinets – double door style, extra shelves available – slight additional charge

The WB Safety Storage Cabinets will offer safer storing for flammable liquids, reduce time—consuming trips to remote storage rooms

and permit storage close to work areas

For maximum safety, fill the cabinet with approved WB Safety Cans (pg# 57)

Designed and labeled by the Underwriters Laboratories of Canada as meeting the requirements of the National Fire Code of Canada 1980 part 4 Flammable and Combustible Liquids performance clause 4.2.10.4.

FEATURES:

All welded double wall 18 Gauge construction with 1 1/2"" insulating air space

2" leakproof sill to contain spills

Lockable 3 point self latching flush mounted paddle handle with Keys

Radius door & tub edges

Doors are double walled. 14 gauge outside & 18 gauge inside

4" heavy duty welded hinges with brass pins

Twin 2" flame arrestor vents

Adjustable leveling feet and grounding connector

Powder coated finish

Safety signage in large red letters. French & English

SP Galvanized steel shelves adjust on 2 1/2" centers

Meets OSHA, NFPA 30 & UFC 79 Standards

FM Approved

FACTORY MUTUAL APPROVAL DESIGNED IN ACCORDANCE WITH NFPA AND OSHA STANDARDS

COLOURS

Concealed Self-closing, **Self-latching Door**

Bi-folding, Self-closing and Self-latching Door, with fusible link

THE SMART WAY TO SAFELY STORE YOUR CHEMICALS.

NFPA 704 is a standard maintained by the National Fire Protection Association. It defines the colloquial "fire diamond" used by emergency personnel to quickly and easily identify the risks posed by nearby hazardous materials. This is necessary to help determine what, if any, special equipment should be used, procedures followed, or precautions taken during the first moments of an emergency response and standard safe handling practises for all chemicals.

The four divisions are typically color-coded, with blue indicating level of health hazard, red indicating flammability, yellow (chemical) reactivity, and white containing special codes for unique hazards. Each of health, flammability and reactivity is rated on a scale from 0 (no hazard: normal substance) to 4 (severe risk).

The HAZ-ID chemical hazard identification label system is now standard on all ULC Listed & FM approved models. Tailored by Canadians for Canadians, the label is bilingual in French & English.

The HAZ-ID label system can also be ordered separately and added to any existing safety storage cabinet for uniform safety storage.

HAZID

FEATURES:

All welded double wall 18 gauge construction with 1-1/2" insulating air space

2" leakproof sill to contain leaks

Lockable flush mounted handle (gripper pad) with 2 keys

Doors have 3 point locking system and radius

Doors are double walled, 14 gauge outside & 18 gauge inside

4" heavy duty welded hinges with brass pins

Twin 2" flame arrester vents

Adjustable leveling feet

Powder coated yellow finish (see options)

Safety signage in large red letters

Galvanized steel shelves adjust on 2-1/2" centers

Grounding connector

Meets OSHA and NFPA code 30 & UFC 79 standards

Chemical storage maximum - Class I & II - 60 gallons, Class III - 120 gallons

HWWM WALLMOUNT FLAMMABLE CABINETS

Manual close doors on double wall cabinets to contain flammable liquids in protected storage with 56% more steel in the door than competitors

FEATURES

All welded double wall 18 gauge construction with 1-1/2" insulating air space.

Doors are double walled, 14 gauge outside & 18 gauge inside.

2" leakproof sill to contain leaks.

Lockable flush mounted handle with 2 keys.

Doors have 3 point locking system and radius edges.

4" heavy duty welded hinges with brass pins.

Twin 2" flame arrester vents.

Powder coated yellow finish.

Safety signage in large red letters.

Galvanized steel shelves adjust on 2 1/2" centers.

Meets OSHA, and NFPA code 30 standards.

2 Doors - Manual close doors open to full 180°

Overall Height - 44"

Chemical storage maximum - Class I & II - 60 gallons, Class III - 120 gallons

HWDUO DUAL FLAMMABLE & CORROSIVE SAFETY CABINETS

NEW Product!

Dual Storage Safety Cabinet offers safe storage of both flammable and corrosive liquids within one single cabinet. A double wall partition with 11/2(38mm) air space creates two compartments to isolate contents. Each compartment door features a paddle handle for easy access and locks independently. Large warning labels clearly identifies contents. Corrosive compartment includes removable poly sump liner that resists aggressive chemicals.and permit storage close to work areas

Cabinet meets OSHA and NFPA requirements, is finished with white epoxy paint for increased chemical resistance, and features a leaktight, 2(51mm) deep sump in each compartment to capture spills. It is Piggyback sized to fit atop a standard 30- or 45-gallon cabinet, can be used singly on benchtop or stacked two-high, or could be wall mounted with optional Wall Hanger Assembly.

Great convenience in a high performance safety cabinet

FEATURES:

OSHA compliant, double-wall construction throughout with 1.5" (38mm) insulating air space for fire resistance

Inner double walled partition creates two compartments to separate flammables from corrosives

Independent locking doors with easy opening handles

Three-point, self-latching door closure with double key sets

Sturdy, welded 18-gauge (1mm) steel finished in chemical resistant white epoxy powder paint

2" (51mm) leakproof sills with removable poly sump tray on corrosive side

HAZ-ID warning labels identify contents and NFPA Code 30

Built-in grounding connector prevents static buildup

Self-close style designed with hidden mechanism for optimum storage space. Fusible links hold doors open when needed and automatically melt to close shut under fire conditions

Fits on benchtop or atop 30- or 45-gallon (114- or 170-ltr) cabinet

Optional accessory available for wall mounting

DESIGNED IN ACCORDANCE WITH NFPA 30 AND OSHA STANDARDS

RECOMMENDATIONS

Keep flammable liquids close to the work area in a safe and organized way while limiting employee exposure with SECURALL Safety Storage Cabinets

Choose from a large selection of models from 4 gallons to 90 gallons

They are designed to meet safety requirements whenever a job involves the handling of flammable liquids

Smaller cabinets are convenient where space is limited

MODEL # A105 EXTERIOR DIMENSIONS (H X W X D) (35 X 24 X 18)"

All cabinets comply With OSHA Regulations

Designed In Accordance With The Standards Of NFPA Code 30

MODEL # A130 EXTERIOR DIMENSIONS

(44 X 43 X 18)"

(H X W X D)

DESIGN FEATURES

Improved self-latching doors employ spring latches for easier and safer closing

Flush mounted locking handle provides obstruction free finger tip operation

Popular models are FM approved

LP AND OXYGEN ALUMINUM GAS CYLINDER SECURITY CABINETS

SECURALL®

FEATURES

These heavy gauge aluminum gas cylinder cabinets provide significant advantages over conventional painted steel models

Designed for outdoor storage, these all aluminum cabinets will resist weathering and won't corrode or discolor

Just 1/3 the weight of painted steel units, SECURALL's aluminum models also offer real savings on shipping charges

All welded construction, ready to use, shipped fully assembled

These cabinets will provide years of tamper resistant storage for your LP and Oxygen gas cylinders

Meets OSHA SubPart 1910.110 requirements and NFPA 58-113 standards or CSA B149.2.

MEDICAL GAS STORAGE CABINETS

SECURALL®

FEATURES

Reinforced all welded construction

Large warning label

Flush mounted locking handle

Heavy gauge piano hinges

Adjustable leveling legs (4)

Double wall construction with 1 1/2 air space

3 point self-latching doors

Urethane finish in OSHA Safety Green

Cabinets are designed to meet storage requirements set forth in:

NFPA Code 99 - Health Care Facilities

NFPA Code 101 - Life Safety

NFPA Code 30 - Flammable & Combustible Liquids

Store your portable medical gas cylinders safely and in compliance with OSHA requirements. These lockable storage cabinets limit access to authorized personnel, protecting cylinders from theft, damage or tampering. The heavy-gauge, double walled construction shields your cylinders from heat, sparks and flame, and separates them from flammable and combustible materials. Designed for D- and E-size cylinders up to 33-3/4" long x 4-1/4" diameter and H-size

cylinders up to 60" long x 9-1/4" diameter. Fire lining available.

Models KJ, KK, KL - Medical carts for 24, 30 and 60 cylinders

FEATURES

All welded steel construction (except casters).

Durable 14 gauge trays, 1-1/2" x 3/16" angle corner posts, and 12 gauge caster mounts and tank supports.

Raised offset handle.

Bolt on casters, 2 swivel & 2 rigid, for easy replacement and superior cart tracking - see specifications chart.

Powder coated green finish.

Trays have lasercut holes to hold cylinders in upright position.

WEATHER PROOF FLAMMABLE STORAGE CABINETS

SECURALL®

SECURALL® Weatherproof cabinets offer the same dependable storage for flammables and combustibles as our standard safety cabinet line with added protection from the elements.

FEATURES

The double walled FM Approved Cabinets are built with 18 gauge galvanized steel and painted with a weather-resistant, urethane finish that is also resistant to UV rays.

All models feature a sloped roof with a 2 3/4" overhang for and interior & exterior astragals that prevent rain and snow penetration, while the flush mounted stainless steel locking paddle handle resists corrosion.

Easily move these cabinets to the appropriate work location using built-in heavy gauge forklift channels, and then secure with fully welded 7 gauge steel bolt-down brackets.

Available in 30, 45, 60 & 90 gallon capacities with manual and self-closing door styles. Self-closing Safe-T-Doors have fusible links that melt at 165° F allowing the doors to automatically close and latch. Standard color is Yellow.

Cabinets meet NFPA 40 CFR 264, 265, NFPA Code 30 & OSHA 1910 requirements.

881	HIGH SECURITY HANDLE WITH HASP			2							

FEATURES

Chemical/corrosive/ultraviolet resistant epoxy paint

Leak tight sump

Natural convection ventilation

Explosion relief panels standard

Removable galvanized steel grating

Reflective warning tape

Forklift channels

Non-sparking aluminum door sill

Specifically designed for outdoor storage and dispensing from 55-gallon drums containing flammable or combustible liquids. Outer wall is constructed of welded 16 or 12 gauge steel. Inner wall is constructed of 18 gauge steel. Outdoor storage buildings are constructed with 3" airspace throughout. Commercial grade lock set handle with inside release.

Call for options: Custom sizes, Fire rating, Shelves, Fire Suppression System, Explosion-Proof Lighting, Heating & Cooling, Ramps, Fiberglass Floor Grating, etc.

HAZMAT CHEMICAL STORAGE

Natural Convection Air Vents (OSHA, FM 6049, IBC)

Explosion Relief Panel(s) (IBC, FM, NFPA)

> Static Ground Connection Inside and Out (FM, OSHA, NFPA)

Forklift Channels with Anchoring

(EPA, to lift off ground & allow for visual inspection of sump area, IBC)

MODEL # B6400

NFPA 704 Warning label for hazard rating system with placard holder and protective shield (FM, OSHA, NFPA)

Removable galvanized steel safety floor planking (250lb FM Requirement. OSHA 1910, IBC)

Leak-tight, continuously welded sump meets EPA and **OSHA** requirements for secondary containment (EPA, NFPA, OSHA, FM, IBC)

CHEMICAL / CORROSIVE / ULTRAVIOLET RESISTANT PAINT

Reflective Warning Tape Marking Entry (OSHA, IBC)

Heavy Guage Aluminum Threshold

Engineered

All models are designed in accordance with the standards set forth by NFPA Code 30 and comply with OSHA and EPA regulations

All models are FM Approved for the storing and dispensing of flammable and combustible liquids.

> Available with 2 or 4 Hour Fire Rating

Meets Canadian Electrical Standards

HERBERT WILLIAMS offers a complete line of buildings for storing agri-chemicals safely All buildings are designed to help keep you in accordance with safety rules when mixing and handling pesticides.

HERBERT WILLIAMS products will help to protect you from chemical spills, children and animal poisoning, theft, fire and unauthorized personnel Meets or exceeds EPA regulations.

Agri-Chemical Lockers/Buildings are also available with 2 and 4-hour fire ratings. Firerating is dependant on the proximity of the location of your outdoor storage Locker/Building to any adjacent building or property line. Storage Units located within 10 feet of a main building or property line require a 4-hour fire rating. Units located more than 10 feet and less than 50 feet from a main building or property line require a 2-hour fire rating. Units located more than 75 feet from a main building or property line require do not require a fire rating (Check with your local authority having

CUSTOMIZED BUILDINGS

SECURALL®

Our Sales and Engineering teams are ready to help you design a storage building for your special application.

While our standard models are designed for chemical storage, pesticide storage, and hazardous material storage, custom models can be designed for any purpose.

Our decades of fabrication experience enables us to construct the highest quality storage building for just about any storage need. So don't hesitate to ask; we can probably build it!

LET US HELP YOU DESIGN AN ALL STEEL BUILDING TO MEET YOUR **SPECIFIC NEEDS!**

CUSTOM AND STAINLESS STEEL CABINET MODELS

SECURALL®

FEATURES

Cabinets can be constructed to comply with both NFPA and OSHA regulations

Cabinets can be made in almost any size or shape; example: To fit under hoods, on top of counters, free standing or wall mounted

Select your optional equipment: doors, shelves, color or wording, kick recess and vents

Cabinets can be made for the storage of flammables, acids, oxidizers, water reactive chemicals, hazardous waste, poisons etc.

SECURALL also offers low contaminant stainless steel cabinets for storage in controlled environment applications

Constructed of 18 gauge 304 brushed stainless steel

SAFETY STORAGE CABINETS FOR FLAMMABLES IN SAFETY CANS

FEATURES

NEW! All models now include self-latching doors

Compact Storage Cabinets

Available in 4, 12, 15 and 16 gallon

Single door manual or self closing

Ideal for the storage of smaller containers of flammables, can be used on counter tops, workbenches or on the floor

Standard Storage Cabinets

Available in two-door manual or self-closing

Designed for storage of larger containers of flammable liquids.

Galvanized steel shelves, adjustable on 43/4" centers, support 350 pounds

Galvanized steel leveling legs

Internal and external welded construction

18 Gauge steel reinforced double wall panel construction with 11/2" air space

2" Raised leakproof sill

2" Vent with fire baffle and cap

Ground connection

Lead-free high gloss baked on powder finish

3 Point key lock doors

Compliance: OSHA 29; CFR 1910.106(d)3

MAXIMUM STORAGE QUANTITIES FOR CABINETS

LIQUID CLASS

MAXIMUM STORAGE CAPACITY

FLAMMABLE/CLASS I 60 GAL.

COMBUSTIBLE/CLASS II 60 GAL.

COMBUSTIBLE/CLASS III 120 GAL.

COMBINATION OF CLASSES 120 GAL.*

* Not more than 60 gallons may be Class I and Class II liquids. No more than 120 gallons of Class III liquids may be stored in a storage cabinet, according to OSHA 29 CFR 1910.106(d)(3) and NFPA 30 Section 4-3-1

Note: Not more than three such cabinets may be located in a single fire area, according to NFPA 30 Section 4-3-1.

Provide adequate facilities for the storage of flammables, corrosives, pesticides or paint and ink products. Compliance: OSHA 29CFR 1910.106(d)3

ACID AND CORROSIVE CABINETS

FEATURES

Special corrosive resistant powder finish on all internal and external surfaces, including shelves for longer cabinet life

Standard polyethylene trays fit over shelves and in the cabinet bottom, containing small spills and providing extra corrosion protection

All cabinets feature baked on powder coat finish

Not recommended for use with Sulfuric, Nitric or Hydrochloric Acid. (The Eagle Polyethylene cabinets are suitable for use with these acids) MODEL # CRA-32 30 GALLON EXTERIOR DIMENSIONS (H X W X D) (43 X 18 X 44)"

MODEL # CRA-47 45 GALLON EXTERIOR DIMENSIONS (H X W X D) (43 X 18 X 65)"

* FACTORY MUTUAL APPROVAL DESIGNED IN ACCORDANCE WITH NFPA AND OSHA STANDARDS

POLYETHYLENE ACID CABINETS

FEATURES

Suitable for use with sulphuric, hydrochloric and nitric acid

100% polyethylene for excellent resistance to harmful acid vapors and spills

Available in 4 gallon Benchtop, 22 gallon Under-Counter Storage and 44 gallon Cabinet with independent upper and lower compartments, allowing segregation of reactive chemicals

All cabinets feature internal sump capacities of at least 1 gallon

Adjustable poly shelves

Storage for smaller containers in the doors

Lockable doors

2-2" poly vents with caps

Available in Flat Blue and White with a smooth finish for ease of cleaning

^{**}CRA-P22/P44 have vents on the back. CRA-P44 has 4 total vents.

CABINETS FOR THE STORAGE OF HAZARDOUS AND FLAMMABLE DRUMS

FEATURES

Choice of horizontal or vertical drum storage

Available for either one or two drums

Convenient half shelf for additional storage space (for accessories or containers)

Drum supports

Large Flammable - Keep Fire Away Labels

Hazardous Cabinets come with Hazardous Waste labels

Options

Drum rollers and drum cabinet ramp for easy drum handling

MODEL # 1955 110 GALLON EXTERIOR DIMENSIONS (W X D X H) (58 X 31 1/2 X 65)"

Store and Pour Flammables with approved WB Safety Cans

A Safety Can is the approved container for storage and handling of flammable and combustible liquids to satisfy OSHA and NFPA requirements

Roll-seam welded 24 gauge terne steel to pass 25 psi-hydrostatic test

Spring loaded lid relieves internal pressure at 5 psi yet retains full can of liquid when inverted

Every WB can must pass an underwater pressure test before painting and packaging

Flame Arrestor protects the flammable contents of the can from exterior sources of ignition

One-hand grip-to-open pour spouts

Integral pressure-relief on Type 11 pour spouts

Flame Arrestors

Every WB safety can is equipped with a tested and approved flame arrestor

The flame arrestor protects the flammable contents of the can from exterior sources of ignition

* FACTORY MUTUAL APPROVAL DESIGNED IN ACCORDANCE WITH NFPA AND OSHA STANDARDS

The cans below are available in Blue for the storage of KerosEne and Yellow for the storage of Diesel. When ordering, add a "B" or "Y" at the end of the model number. UL, ULC and FM Approved.

ULC, FM OSHA, NFPA

Type I Safety Cans

Galvanized Type I cans meet OSHA and NFPA Code 30 requirements

Type I cans are UL and ULC listed and FM approved for safe handling and storage of gasoline and other flammable liquids

Cans feature environmentally friendly Lead Free Technology

Constructed of 24-gauge hot dipped galvanized steel

HDPE & Stainless Type I Polyethylene Safety Cans

Impervious to many liquid chemicals, acids, caustics, solvents and corrosives

Help reduce the danger of explosions

High density polyethylene cans are dent and puncture resistant and feature corrosion resistant stainless steel fittings

Type II Galvanized Steel Safety Cans

Safety cans feature two openings, one with a pressure-relief spring closing lid for filling, one with an actuated pour valve with a flexible metal spout for safer controlled dispensing

Filler spout and flame arrestors in both openings are non-sparking brass designed for flashback protection

Cans are FM, UL and ULC approved and meet OSHA and NFPA Code 30 requirements

NEPA AND OSHA STANDARDS

THE ABOVE CANS ARE AVAILABLE IN BLUE FOR THE STORAGE OF KEROSENE AND YELLOW FOR THE STORAGE OF DIESEL. WHEN ORDERING, ADD A "B" OR "Y" AT THE END OF THE MODEL NUMBER. UL, ULC AND FM APPROVED.

DISPOSAL CANS

FEATURES

Provide an intermediate station for temporary storage of liquid chemical wastes

All cans are FM approved and feature wide 4" spout and cap that locks open to 80 degree angle for easy filling

All cans have a flame arrestor, a free-swing handle and auto vent cap

High Density Polyethylene Cans

Resistant to dents and punctures

Feature stainless steel fittings

Ideal for more aggressive chemicals & corrosives

Galvanized Steel cans

Ideal for disposal of flammable petroleum based wastes

Type 316 Stainless Steel

Recommended for use with most alcohols, ethers, aromatics, hydrocarbons and chlorinated hydrocarbon wastes
