

Safety Rinse Tanks

Easily clean large parts with big-capacity rinse tanks—available in floor standing, benchtop and twin chamber styles

- Generously sized to immerse parts 16-in deep by 35-in wide (406-mm by 889-mm)
- All chambers feature a 0.75-in (19-mm) drain plug for easy solvent replacement
- Floor standing rinse tanks feature self-closing covers operated by foot treadle
 - Adjustable-rate pneumatic cylinder prevents cover from slamming shut when treadle is released
- Benchtop rinse tanks allow easy point-of-use access on workbenches
 - Lift-and-latch style cover includes a fusible link that melts under fire conditions to automatically close cover
- Twin chamber rinse tanks are divided between sections to permit cleaning heavy grime on one side, and using a clean solvent rinse on the other

Foot treadle opens the rinse tank cover, leaving hands free for cleaning.
